

Heimurin – Nýtt heimsatlas til skúla og almenning

Nýggja heimsatlasíð er nú komið so væl áleiðis, at vit í Námi hava samlaða kortavalið til atlasíð. Nøkur av kortunum eru á tekniborðinum í løtuni og væntast liðug í vár. Men vit hava samlaða navnatilfarið til atlasíð í fyribils umseting, ið fer til viðgerðar hjá fakfólki og í málnevndini.

Vit vilja við hjálagda navnalista eisini geva almenninginum høvi at koma við viðmerkingum, ið vit vóna kunnu vera við til at gera nýggja heimsatlasíð enn betur.

Nám vil taka allar viðmerkingar frá almenninginum við í endaligu niðurstøðuna av navnatilfarinum saman við viðgerðini frá serfrøðingunum og málnevndini.

Viðheft síggjast í bókstavarað øll tey staðarnøvn í Føroyum og úti í heimi umleið 22.000 í tali, sum verða leitorð í nýggja heimsatlasinum hjá Námi.

20.000 av hesum eru staðarnøvn úti í heimi og 2000 eru á landi og sjógvi í og kring Føroyar.

Av staðarnøvnunum úti í heimi eru túsund umsett. Tey síggjast á kortunum og í leitorðalistanum aftast í atlasinum. Í leitorðalistanum verða umsettu staðarnøvnini ofta víst við ymsum stavihættum, so øll, ið brúka atlasíð, hava besta móguleika at finna støð, uttan mun til um tey brúka føroyska stavseting ella tey brúka útlendska stavseting.

Tá ið ræður um tey túsund umsettu nøvnini hefur reglan verið, at bara landanøvn verða umsett. Í øðrum lagi verða eisini landafrøðilig fyrbrigdi, ið fara um landamark, umsett. Aftast í atlasinum er ein landafrøðilig alfrøði.

Heimsatlasíð, ið fær heitið *Heimurin – Atlas til skúla og almenning* verður gjørt í samstarvi við undirvísingardeildina hjá forlagnum Harper Collins og ætlast at vera liðugt í mai í 2013. Atlasíð fær harða permu, og síðutalið er 248. Forlagið Harper Collins er fremsti framleiðari av kortum, ið verða nýtt í atlasum um allan heim. Føroyska útgávan byggir á *Collins Student World Atlas*. Málbólkurin er næmingar úr 9. flokki upp í miðnám.

Øll, ið hava onkra viðmerking til tey staðarnøvn, ið her eru at síggja, kunnu skriva til atlas@nam.fo og greiða frá.

Vit takka fyri tygara áhuga.
